

Football\_Estimation.flv

- Know: I can predict amount needed by estimating.  
Do: Use estimation to determine supplies that might be needed.  
YWBSI: you give a reasonable estimation of the snacks you will need for a class picnic/sports picnic.

Materials:

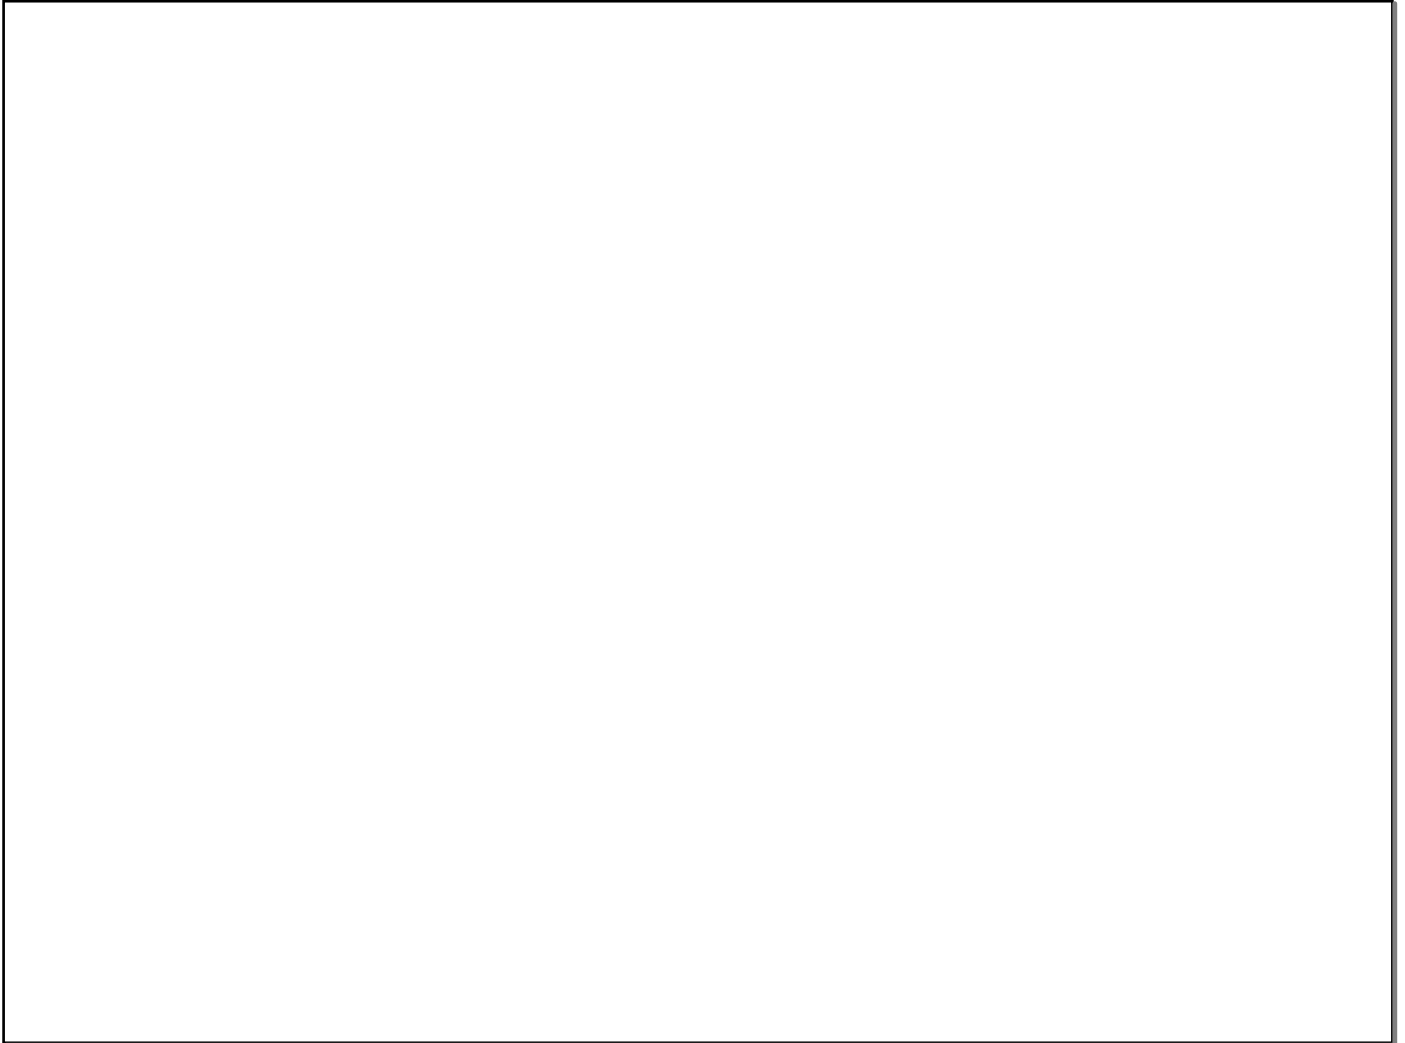

Procedures: Show Discovery video

When do you use estimation? shopping, \_\_\_\_\_

\_\_\_\_\_

Choose one item you would like to have at your picnic.  
Round the price to the nearest dime or 10.  
Roll the die to find out how much it will cost you.

Gatorade	\$ .99
Bag of Chips	.55
Skittles	.43
Soda	.49
Cupcake	.75

Finally, with a partner make up a menu for your event. Determine approximately how many people will attend and how much it will cost you for the refreshments.

1. number of people
2. amount of food (types and quantity
3. cost of each and total estimated cost.
